# Think of the Future Vision beyond the Present

## Vision

**Korean Leading Engineering Institute**

## Foundation Principles

**Truth**

Exploring the truth is the essence of an institute

**Creation**

The meaning of human existence can be identified through creation

**Honesty**

The genuine form of human can be realized by honest attitude in living

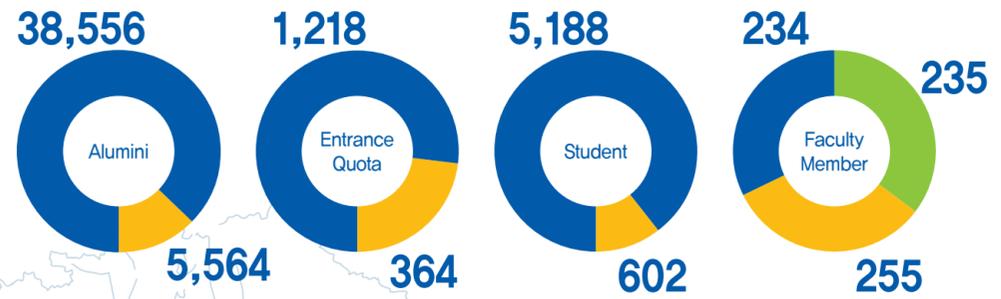

## Education Purposes

To nurture leaders with a clear view of nation and a developmental image of the future

To develop practical and creative professionals

To cultivate members of society who have intelligence and virtue

## Students, Employees and Facilities (As of April 1, 2022)

**Site Area (m<sup>2</sup>)** Yangho campus : 687,067 Shinpyeong campus : 40,690 Others : 7,644  
**Gross Area (m<sup>2</sup>)** Yangho campus : 181,362 Shinpyeong campus : 23,721 Others : 2,774  
**Buildings** Yangho campus : 34 Shinpyeong campus : 11 Others : 3

# Continue Unlimited Challenges and Passion

## History

- 1979 Received accreditation of the establishment
- 1980 The first freshmen orientation held
- 1987 Established graduate school
- 1990 Became a national university
- 1994 Established the Kumoh national university development foundation
- 1999 Established graduate school of education
- 2004 Established the Industry-academic cooperation foundation of KIT Completed transfer of the new campus
- 2012 Leaders in INdustry-university Cooperation(LINC) Advancement of College Education(ACE)
- 2017 Social-custom Leaders in INdustry-university Cooperation(LINC+)
- 2018 Regional small and medium business R&D industry internship support project  
University-focused research institutes support project for science and engineering  
Korea national university development project  
Received a presidential citation in the 19th innovative technology show
- 2019 Fostering regional leaders in university  
HuStar medical industry innovation university project  
Acquired second cycle university institution evaluation certification
- 2020 Fourth industrial revolution innovation-leading university project  
Industry-academic cooperation based platform R&D funded by Korea Ministry of SMEs and Startups  
Key technology center of Gyeongbuk Gumi Innatown Phase 4 BK21 initiative
- 2022 Opened makerspace makers village  
Support program for university development  
University job center  
The grand information technology research center  
Regional innovation system(participating university)  
Leaders in INdustry-university Cooperation 3.0(LINC 3.0)  
Established the Kumoh national institute of technology holding Co., Ltd

## Educational Organization

Undergraduate Schools and Departments	Graduate School
School of Electronic Engineering Majors of Information Electronic Engineering · Majors of Control and Robot Engineering Majors of Electronic Communication Engineering · Majors of Electronics and Radio Communication Engineering · Majors of Electronics and IT Convergence	Graduate School A landmark of the 21st century science and technology, fosters human resources with cutting-edge science and technology as well as creativity
School of Architecture Department of Architecture · Department of Architectural Engineering	Graduate School of Industry The school fosters professional managers in connection with various companies in Gumi Industrial Complex
School of Industrial Engineering Department of Industrial & Management Engineering · Department of Engineering Design	Graduate School of Education Researching and teaching practical measures on academic theories and application methods, the school fosters professional educators who can actively cope with the changing education fields, through the research plan(teaching) about the academic theory and application method
School of Chemical Materials Engineering Department of Polymer Science and Engineering Department of Materials Design Engineering · Department of Chemical Engineering	Graduate School of Consulting The school nurtures core talent of consulting industry who aim at cultivating global consultants, establishing consulting networks, and strengthening roles of management and technology convergence consulting
School of Materials Science and Engineering Department of Mechanical Engineering Department of Mechanical Design Engineering Department of Mechanical System Engineering Department of Civil Engineering Department of Computer Engineering Department of Computer Software Engineering Department of Optical Engineering	
Department of Medical IT Convergence Engineering Department of Environmental Engineering Department of IT Convergence Department of Artificial Intelligence Engineering Department of Mathematics & Big Data Science Department of Chemistry and Bio-Science Department of Business Administration	
Department of Liberal Arts & Teacher Training
